Pope Francis Quotes

No one can grow if he does not accept his smallness

God never tires of forgiving us; we are the ones who tires of seeking his mercy

Where there is truth, there is also light, but don't confuse light with the flash.

If we start without confidence, we have already lost half the battle and we bury our talents.

- POPE FRANCIS

Provincial Message

Dear and loving Sisters in Christ Jesus!!!

I am indeed very happy to meet you through this message. I thank God for His protection and care to our beloved father and every member of the Society. God is so faithful to all His children but we lack God fearing so lack many things. Thus, I wanted to turn your attention to the Concept of **'Being God-Fearing'**.

The term **"God-fearing"** refers to having a deep respect, reverence, and awe for God, which often manifests in a person's behavior, values, and worldview. It is rooted in the belief that God is the supreme authority and one's actions should align with His will. Being God-fearing does not simply mean being afraid of God in a negative sense but rather respecting His power, majesty, and moral laws. It involves living with a conscious awareness that God is always present, watching over us, and that our actions have spiritual consequences.

Moral and Ethical Living:- One of the primary ways a God-fearing person expresses their faith is through their adherence to moral and ethical principles. They strive to live lives that are pleasing to God, guided by values like honesty, humility, compassion, and justice. This fear of God serves as a deterrent from immoral actions, fostering a sense of responsibility and accountability for one's choices. For many believers, the idea of God's judgment encourages

Provincial Message

Humility and Dependence on God:- Being God-fearing also brings a sense of humility. It reminds individuals of their finite nature and dependence on a higher power. In this way, fear of God inspires trust and faith in His wisdom, guidance, and providence. Recognizing that life's blessings and challenges are under God's control cultivates an attitude of gratitude and submission to His will. Instead of relying solely on their own strength, God-fearing individuals often seek divine help and guidance in times of need.

Love as a Component:- Interestingly, fear of God is deeply connected to love for Him. In many religious traditions, fear of God is described not only as awe but also as a profound sense of love and desire to please Him. A God-fearing person serves God not out of fear of punishment alone but also out of love and a desire for a closer relationship with Him. This love propels them to obey God's commandments and care for others, as they believe that loving God includes loving His creation.

Impact on Relationships and Community:- In relationships and communities, a God-fearing individual is often seen as a person of integrity and trustworthiness. They value peace, respect others' dignity, and strive to contribute positively to society. Whether in family settings, work environments, or broader social circles, their actions are guided by their faith in God's teachings, and they often work to uplift those around them. In many cultures, being described as God-fearing is considered a high compliment, indicating that one lives according to virtuous principles.

Ultimately, God-fearing is to live with a sense of accountability to a higher power. It is about cultivating an inner life marked by reverence, humility, and a desire to align one's actions with divine guidance. Far from being about mere fear, it is a balanced combination of awe, love, and moral commitment, shaping the way individuals interact with both God and the world around them.

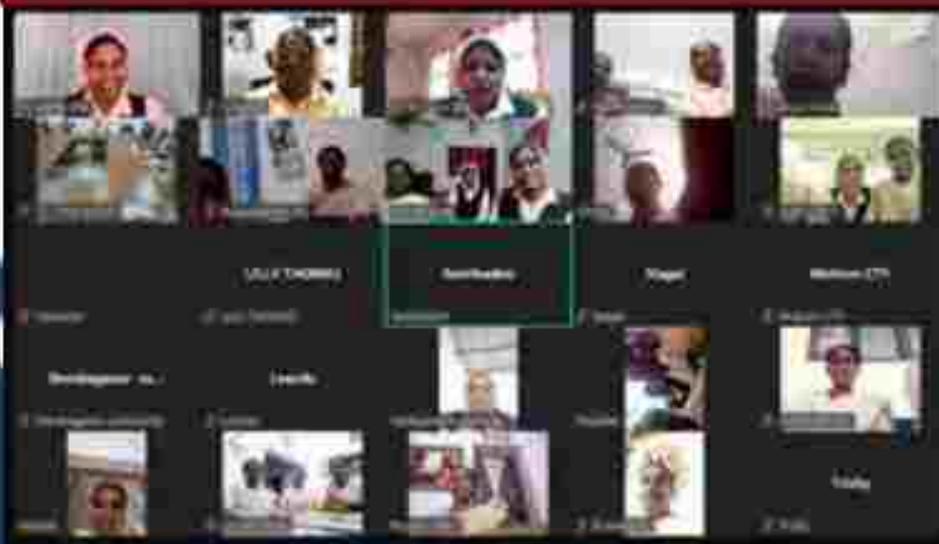

**Yours in Christ
