Pope Francis Quotes

The Church must be a place of mercy freely given, where everyone can feel welcomed, loved, forgiven, and encouraged to live the good life of the Gospel

Jesus teaches us another way: Go out. Go out and share your testimony, go out and interact with your brothers, go out and share, go out and ask. Become the Word in body as well as spirit.

This is important: to get to know people, listen, expand the circle of ideas. The world is crisscrossed by roads that come closer together and move apart, but the important thing is that they lead towards the Good.

Find new ways to spread the word of God to every corner of the world.

Whenever we encounter another person in love, we learn something new about God.

You can, you must try to seek God in every human life. Although the life of a person is a land full of thorns and weeds, there is always a space in which the good seed can grow. You have to trust God.

- POPE FRANCIS

Our Father Founder's Quotes

- Difficulty is an opportunity to grow
- **We are called not just to be sisters and priests but to be missionaries.**
- Community is our first mission because community is the congregation
- **Religious life means you are committed to God, you are committed and called for higher purpose**
- Every authority is given only to serve.
- **Not what you do but what you are makes you a true religious.**
- Living for God demands pain in our life.

- Rev.Fr.J.E.Arul Raj

Provincial Message

Dear Brethren,

I am happy to be with you through these reflections. I sincerely appreciate all of you for your efforts to enhance your meditation and contemplation practices, as well as for seeking spiritual energy daily. I would like to offer some additional clarity on "**Contemplation: A Journey Within.**"

Contemplation:- Many of us are drawn to—and frequently compelled into—contemplation in the modern day. We are invited to focus inside and explore the depths of our ideas, feelings, and spiritual awareness via the profound practice of contemplation. Contemplation promotes a closer relationship with one's inner life and a connection to the larger cosmos, in contrast to meditation, which frequently places an emphasis on relaxing the mind or concentrating on certain objects or ideas.

The Fundamentals of Reflection: Contemplation is fundamentally about being present and quiet. In the midst of life's chaos, it provides a place to stop and let ideas and feelings come to the surface without fear of criticism. Increased self-awareness, calm, and clarity can result from this exercise. Through mindfulness, we can connect with our inner wisdom and unearth truths that

The Practice of Contemplation

Create a Sacred Space: Find a quiet, comfortable place that feels safe and tranquil.

Set an Intention: Define a clear purpose for your contemplation, whether exploring a question or remaining open to insights.

Breathe and Find Stillness: Start with deep breathing to center yourself and invite stillness.

Engage with Thoughts: Observe your thoughts and feelings

Provincial Message

without judgment, enhancing your understanding of your inner landscape.

Listen: Tune into your intuition and emotions, connecting with your inner voice.

Reflect: After your session, take time to journal your thoughts and insights.

Benefits of Contemplation

- **Enhanced Self-Awareness:** Deepens understanding of oneself, fostering personal growth.
- **Stress Reduction:** Promotes relaxation and mindfulness, reducing anxiety.
- **Improved Clarity:** Leads to clearer thinking and better decision-making.

Spiritual Connection: Deepens your spiritual journey and connection to a greater existence.

Conclusion: - Contemplation is a valuable practice that invites us to explore our inner world, fostering awareness, clarity, and peace. In our fast-paced lives, it offers a refuge for reconnecting with ourselves and understanding life's mysteries. Beyond mental and emotional benefits, contemplation promotes relaxation, reduces stress, and encourages healthier habits, enhancing overall wellness. By integrating contemplation into our daily routines, we can achieve a more balanced and vibrant life.

I earnestly encourage all my dear sisters to take your health seriously and to practice contemplation, striving to be free children of God, unblemished and blameless, holy and pure.

With love and Prayers
Sr.A.Antoniammal DMI
